These courses have been designed to optimize the available time so that you get as much as possible out of the course. Arriving late, leaving for a short time or leaving early will disrupt the dynamics. All of the information being presented is important; missing part of the course will lead to an incomplete and you will not be considered trained.

The training courses you are taking are designed to allow for a free flowing exchange of ideas and comments between the volunteer staff and yourself. This combined with space limitations and inadequate supervision, does not allow for children to attend.

To register for any of the above courses, fill out the attached registration form and return with the correct fees to:
